

Volcano Wrap

Woven Volcanic Rock Tape Withstands Heat up to 1,500°F

VOLCANO WRAP (VW) is made from continuous filament basalt fiber and is engineered for protection from temperatures 1,500°F. When wrapped around exhaust pipes, the unique construction creates attractive and durable finished product.

Volcano Wrap is 25% stronger and provides a 300°F increase in temperature protection over fiberglass wrap. The product is very rugged, and will not exhibit any vibration damage over long periods of use.

The volcanic rock fiber wrap is easy to install and will provide years of protection and good looks.

- **High Temperature Resistance**
- **Easy to Install**
- **Resists Gasoline and Engine Chemicals**
- **Great Appearance**

Volcano Wrap helps redirect the heat every race or every day in production, keeping engine areas cooler and performance results better.

Wall Thickness	Widths	Part #	Standard Spool Put-Ups			Available Colors	Lbs/100'
